

# MTCS COLLOQUIUM

**Dave Larsen (UM-Columbia)**

will present

## **Multivariate regression trees for analysis of abundance data**

4:30 pm

Tuesday, November 9th

Violette Hall 1236

The analysis to be described addresses vegetation data collected (from quadrats) as part of the Missouri Forest Fragments Project. This project's grand goal was to evaluate the impact of deforestation on Missouri's biota.

**Cookies and Refreshments!!!**

**Note the unusual time!**
